SAILING UNDER FALSE COLORS.-There was quite an interesting spectacle before his Honor the Mayor this morning, as he held his usual levee

the Mayor this morning, as he hold his usual levee it was that of a young woman in mise attire, who had been arrested on a charse of highway robbory, in connection with an accomplice. The robbery, or altempt at robbers, took place some time since in the unirequentes part of the city in the neighborhood known as the Neck.

The vice in in the case was a Catholic priest, who was robbed of some fifteen do lars by the ruifians it appears that the priest was, by the by, the same functionary who attended the marderer Probut during his last moments. The priest thought ne recognized the two prisoners as the ones who were engaged in the altest upon him, but doud no swear to their positive identity. They gave a very straight and connected account of themse yes. It appears that the young woman, who for some time past has been leading a dissocute hie, is of a very respectable family. She has been living with the follow who was taken with her, and always passed as a male friend of his.

She was very well disputed, and with her short hair and rough face would have decoived any casual observer into the idea that she was what she appeared to be. She was attired in a long, snabby, well-worn evercoat of the "Shanghai" order, a pair of hight pepper and salt pants, and long heavy boots, into which the bottom of her pants was thrust.

She very evidently seemed to feel ashamed of her She very evidently seemed to feel ashamed of her state, as she hung her head as the crowd gathered around her, and co ored crimson. There being no positive evidence against them, they were held by the Mayor for a fur her hearing.

WILL THE BOARD OF HEALTH LOOK WILL THE BOARD OF HEALTH LOOK INTO THIS MATTER?—At No. 801 Race street there is a large tenement-house. The back-houses of this establishment have been filled to overflowing for some time part, as we are assured by a physician residing and practising in the neighborhood, and the landlord refuses, or at least neg ecfs, to have them cleaned. The water was also stopped some three months ago, and the landord, it is said, refuses to have it put on awain on account of the sileged great expense. During the past six weeks there have been five deaths in the inmilies residing on the premises, several of which deaths, if not all of them, were the results of the accumulated flith and the stench arising therefrom.

Complaints have been made to the Board of Health three several times, but no attention, it is said, has been paid to them by these custodians of the city's health. If this is the case we hope they will proceed without further delay to investigate the matier, and to apply such summary remedies as are in their power. The cholera has not yet disappeared from the city, and for that reason alone the subject should receive prompt attention.

ON SUSPICION OF BURGLARY,-Yesterday ON SUSPICION OF BURGLARY.—Yesterday afternoon angust Johns was arrested on a suspicion of committing a burglary. A warrant was issued against him, and his house. No. 124 Green street, was searched. While the officers were engaged in the house, Johns ran out back and jumped over the fence. He was pursued and was captured by Officer W. H. Myers, Constable of the Iwelfth Ward, and Officer Hauck. He is accused of robbing the dwelling of Joseph Mills, No. 461 N. Fifth street. The following goods were taken and are now at Alder man Toland's office awating the identification of the owners:—Fancy soaps, brushes, cologne, har oil, plated coffin plates and handles, nitrate of silver.

There were also in his possession a large number There were also in his possession a large number of skeleton keys, over 100, in fact, of all sizes and descriptions. Johns is an old offender, and just got out of prison, about a month ago, on a parton. He is, decidedly, from all accounts, a hard customer. He had a hearing before Alderman Ioland, who held him in \$2500 ball for a further hearing next Tues-

THE NEXT GREAT BASE BALL MATCH .-THE NEXT GREAT BASE BALL MATCH.—
Owing to the fact that the next match between the

AN UNRULY PAIR OF BROTHERS--Ed-AN UNRULY PAIR OF BROTHERS—Edward and John Walker were arrested at Broad and bring Garden streets, whilst they were induging in the pleasant amusement of breaking the windows of a saloon, in which a party were having a hila rious time. The disturbance took place at midnight. It commenced inside, where the two belingerent brothers got quarrelsome, and had to leave. They kept up a retreating fire, however, and when outside tried to introduce some perfect bricks to the company within. Not liking such intrusion, the police took the two in charge and escorted them to Aldeiman Boswell's office. That gentlemen heard their story, and held them for a further hearing this morning.

The property was stolen, it is alleged, in Lancaster, and brought down to this city toe, disposal. The owner recognized the prisoner as he was walking in the street, and had him a rested.

A SHOOTING AFFAIR.—About 9) o'clock this morning, a man by the name of Richard White was shot at the saloon No. 916 Locust street. The shot was supposed to be fired by one of two persons, Samu Jeff. ies of Bill West, both of whom did some iall was immediately after the occurrence. The injured man was taken to the Hospital by one of the officers of the First D strict Police. The same officer immediately afterwards started in search of the fugitives, and it is probable will have caught them are now.

A THEATRICAL BASE BALL MATCH .- A A THEATRICAL BASE BALL MATCH.—A very interesting game of base ball came off yesterday afternoon on the grounds of the Athletics, between the first nine of the Chesaut Street Theatre and the first nine of the "Mulberry," or Arch, Street Theatre, The following is the score:—"Che nut," 29 runs; and "Mulberry," 21 runs. ERWING MACHINES SUCCESSFULLY USED BY THE BLIND.—The tollowing testimenial is the most con-clusive evidence we have yet seen of the amplicity and excellence of the Grover & Baker Sewing Ma-To Messes. The Grover & Baker Sewing Machine

I have much pleasure in informing you of the success which has attended our efforts to teach blind lemaies to use your sewing-machines.

SILVER PLATED WARE-AN OLD-ESTABLISHED STAND .- In view of the rapid approach of the Hobdays, our readers are naturally reminded of the fact that they have an innumerable host of friends who are expecting some neat testimonial of friendship. and as most of "present givers" are generally anneyed and perplexed as to what would be most suitable and acceptable, we would suggest to all such that they visit the old-established stand of John O. Mead & Co , northeast corner of Ninth and Chesnut streets. Here they will find every description of Silver-plated Ware, embracing every article imaginable, at prices more reasonable than most other establishments. This house has no connection whatever with any other in the city, and is probably the oldest established place of the kind in Philadelphia. Every article offered for sale is made by experienced workmen, employed only by this firm, which is the only one in the city that manufactures and plates hard metal goods, notwithstanding the pretensions made by other establishments engaged in a similar business. This is a fact which those in search of superior Silverware should bear in mindthat this house can furnish their goods at a much less cost to the purchaser. We therefore hearnly recommend this establishment as the best place in this or any other city for the purchase of every de-

On all sides we hear the merits of the Grover & Baker Sewing Machine exto led. The lades declare it the "very best," and prove it to us in so many underiable facts, that we are bound to confess our conviction of the tiuth of the declaration. What other machine will embroider so beautifully, braid so eleganty, hem so autilessly, quit so evenly, sitch so accurately, gather so regularly, operate to easily? None, we conscientiously affirm.—The Press.

REMARKABLE SPEECH of W. Hepworth Dixon, Fig., of London, at the Testimonial Dinner Given at the Continental Hotel, October 23.—Mr Dixon on rising seemed slightly embarassed. I took up my pen in his defense, and since I have visited your beautiful country, travelling as far as the wild prairies, I have come to rest my poor feet in these very streets tred by that man who gave name to your beautiful city; and I wiff here say, what I have never, as d before to any living soul (Hear!), that, as much as I respect William Penn and his followers their creed, their speech, their dress, I should have found language too inadequate to express my admiration of his principles at that time, if I had supposed I should have found in this city of his founding, and at this very spot (Hear! WE SPEAK FROM EXPERIENCE when we say, that after baying tried all the principal sewing machines, we must accord to that of Grover & Baker the pre-eminence. Those indepenable features of sewing-strength, uniformity, and ela licity-all or which are brought out in this incomparable loventior, make it the first sewing machine in the country.

Yours respectfully, DISOSWAY, GUION & CO . Bankers. NEWBERN, N. C., September 24, 1896. WH H. OLIVER, Esq., Agent for Marvin & Co. DEAR SIE:- I had at my store one of your safes. My building, situated on Middle street, was consumed in the late terrible confiagration.

I am pleased to say, on opening the safe, every book and paper was found to be in perfect order. A more intense fire could scarcely be conceived of. Yours truly, JOHN DILWORTH & Co. NEWBERN, N. C., September 24, 1856.

WM. H. OLIVER Esq., Agent for Marvin & Co. DEAR SIR :- One of your safes stood a most severe trial in my store at the late fire on Middle street. My store was situated in a row of large wooden buildings, the burning of which made a most intense heat. The trial was severe, but the safe came out victorious.

On opening it, every book and paper was found in a perfect state of preservation.

Very respectfully, MARVIN & CO.,

MARVIN'S PATENT

FIRE AND BURGLAR-PROOF

ALUM AND DRY PLASTER

SAFES

Have never sailed to preserve their contents in case

Business men generally spend too little time in the examination and purchase of their safes. Many of them conclude they are all about abke, and then the question of price rales If they would reflect on this matter they would see they were wrong. As nearly all makers claim to use a different filling, the quality must vary. The fact that sales of all makers have passed through fires successfully does not demonstrate that they are all equally fire-proof.

MARVIN'S PATENT SAFES Never Lose their Fire proof Qualities. Never Lose their Fire proof Qualities.

Many people supposed when they bought their sales, years ago, that they would last a lifetime. They now find that the dry atmosphere of their offices has exhausted all the virtue their safes ever had, and many are using safes which, although once good, are now entirely worthless. On the contrary, in our sales the water remains crystallized in the alum until the fire takes place, when it is driven out into the plaster of Paris, by which it is surrounded. The latter by this operation, is set firmly, and thus small cavities or air chambers are

formed, which are non-conductors of heat.

HAVE COMBINATION LOCKS.

Our Patent Combination Lock is the most simple and secure lock ever offered to the public. It has no springs whatever, nor does it have to be taken apart to be changed. We only ask a careful examination of it to satisfy the most incredulous that we claim nothing for it that cannot rully be substantiated in a short interview.

MARVIN'S PATENT SAFES Are the only Safes filled with Alom and Dry Plaster.

OF ALL SIZES, ALWAYS ON HAND. Our Burglar Proof Safes are made of the best boiler iron and nardened spring steel. As all drills are made of steel (except the diamond drill, which is not available for burglars), and must combine toughness with a penetrating power, we are able by our process to give the body of our sales such a degree of hardness and strength as to defy either the drill, cold-chisel, wedges, or sledge.

All we ask is a fair comparison, and we guarantee to convince any one, ho vever prejudiced.

A RICH CASE-AN ALDERMAN GETS A RICH CASE—AN ALDERMAN GETS INTO IROURLE.—Some short time since A'derman McMullen, of this city, paid a visit to New York in company with some of his friends. While there he got into a sort of a free fight or a shirmish, in which he and his companions came off second best. He was then arrested by Caotiain Mills, of the E'guth I'recinct Police of that city. The A'derman left New York vowing venseance on those who had aggasseved him, and fully resolved to take the first chaice of wreaking out his vengeance upon the person of the unlucky Captain Mil a. Accordingly, when the latter came to this city, he was arrested on a warrant, and committed to prison. The after-

wien the latter came to this city, he was arrested on a wairant, and committed to prison. Le afterwards sued out a writ of habeas corpus and was released, there being no grounds for his detention. There the mattr might have rested, and we would not have had any more of the case, if a new phase was not put upon the account. As Captain Mil s was watking in Chesnut street in company with Captain Lovy, of the detective police, he met Alderman McMulleu in the neighborhood of the Continental. man McMulleu in the neighborhood of the Continental.

As soon as the Alderman saw Mills he went towards him and addressed him, it is alleged, in the most insoient and abusive manner, and gave him twenty four hours in which to leave the city. As might be expected, such a very unusual method of procedure very naturally raised quite an excitement, and a large crowd gattered around to see what was going on the Alderman was arrested, it is said, and was eccorted, under the protection of a ponceman, to the office of Alderman Boitler. Here he was leard on the charge as stated, and as it was removed pretty extensitely who the duprits were, the office was well crowded with a goodly array of curiosity hunters, including, of course, the representatives of the papers. The Alderman was, after a short examination, held in \$600 for his good behavior.

—A private letter received in this city from a naval officer at San Francisco, Cal., states that the iron-ciad steamer Monadnock has been put out of commission, and lies at the Mare Island Navy Yard, where she will probably remain until she sinks. Her officers have been transferred to the Vanderbitt. Is the Monadnock, notwithstanding her tamous trip around Cape Horn, a failure? The foregoing looks like it.—Detroit Tribune.
